Brightening Serum Bless Me Saint Oil

This is the first and at the same time a unique cosmetic of the Bless Me brand created by a celebrity make - up artist Aneta Kolendo - Borowska, who designed a product out of care for the most vulnerable and stressed skin of theater and cinema actors and flight attendants.

Luxurious formula

Brightening Serum has an extremely luxurious formula with a complex of 8 organic, active oils: jojoba, evening primrose, macadamia, grape seed, lemongrass, geranium, myrrh and incense along with vitamin E. Developed to rebuild the hydrolipid structure of the skin and immediately deeply nourish and moisturize it.

Delicate texture

Thanks to the delicate consistency of the Brightening Serum skin gains a youthful glow and satin - like smoothness. The serum beautifully penetrates the skin without leaving a greasy layer on it.

Immediate Effects

The effects after using the serum are immediate, clearly visible and tangible.

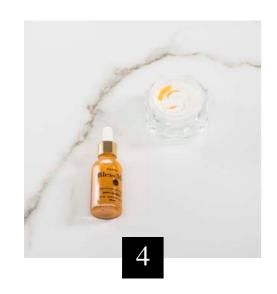

A unique recipe for multiple purposes

The Saint Oil recipe was developed for facial care, but thanks to its unique composition it can be used in many different ways. **Check the recommended solutions below!**

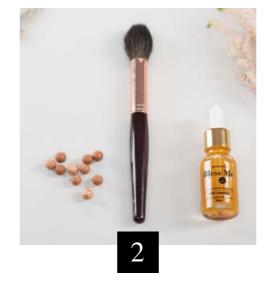

Mix one drop with foundation

For an effect of lightness on your face, mix one drop of Bless Me Saint Oil with your daily foundation.

Add four drops to the daily cream

Remember, moisturized and well-groomed skin is your best business card!

Apply two drops on the cream as a brightening base before makeup

Bless Me Saint Oil Brightening Serum will leave your face radiant and nourished.

Mix five drops with night cream and apply on face, neck and décolletage

At night, the skin regenerates best, do not forget about its proper nutrition.

Massage three drops into wet skin.

The serum will moisturize and nourish your skin.

Even if you have had a sleepless night - no one would notice.

Use more than 6 drops for anti-wrinkle massage

Not only nourish, but also massage your face skin, so that it stays firm and beautiful for years.
