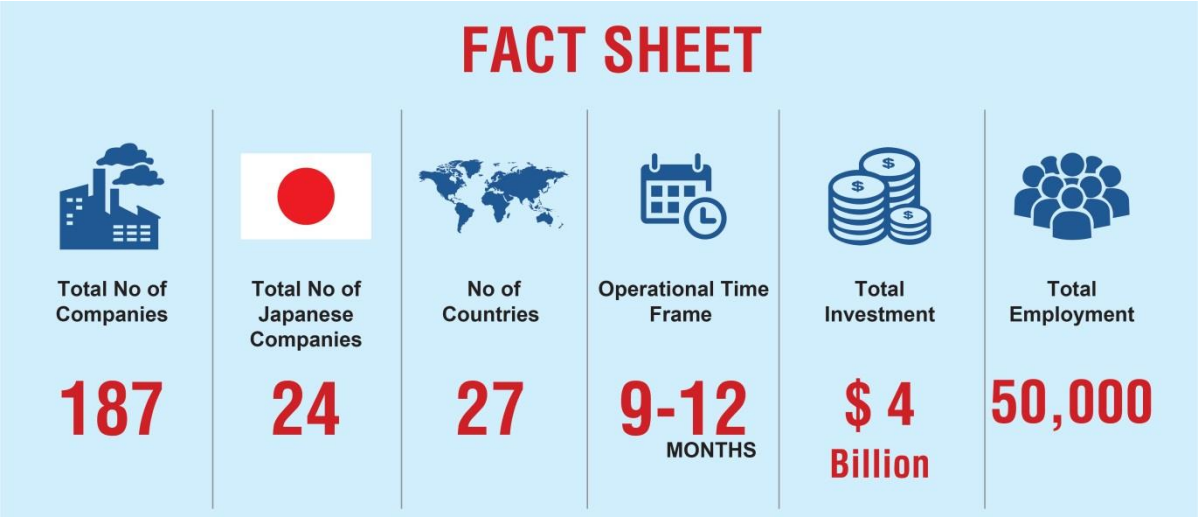
Sri City Industrial Park

The second largest Japanese cluster in India.
An Ideal Destination for Japanese Companie's Expansion in Andhra Pradesh.

Global Presence:-

over **187 top-league** companies from **27 countries** across the globe have made Sri City, home for their new ventures.

Currently, Sri City is home to over 24 Japanese companies like THK, Toray, Kobelco, Isuzu, Daiki Aluminum, Unicharm, Nippon Seiki, NHK Springs, THK, and more.



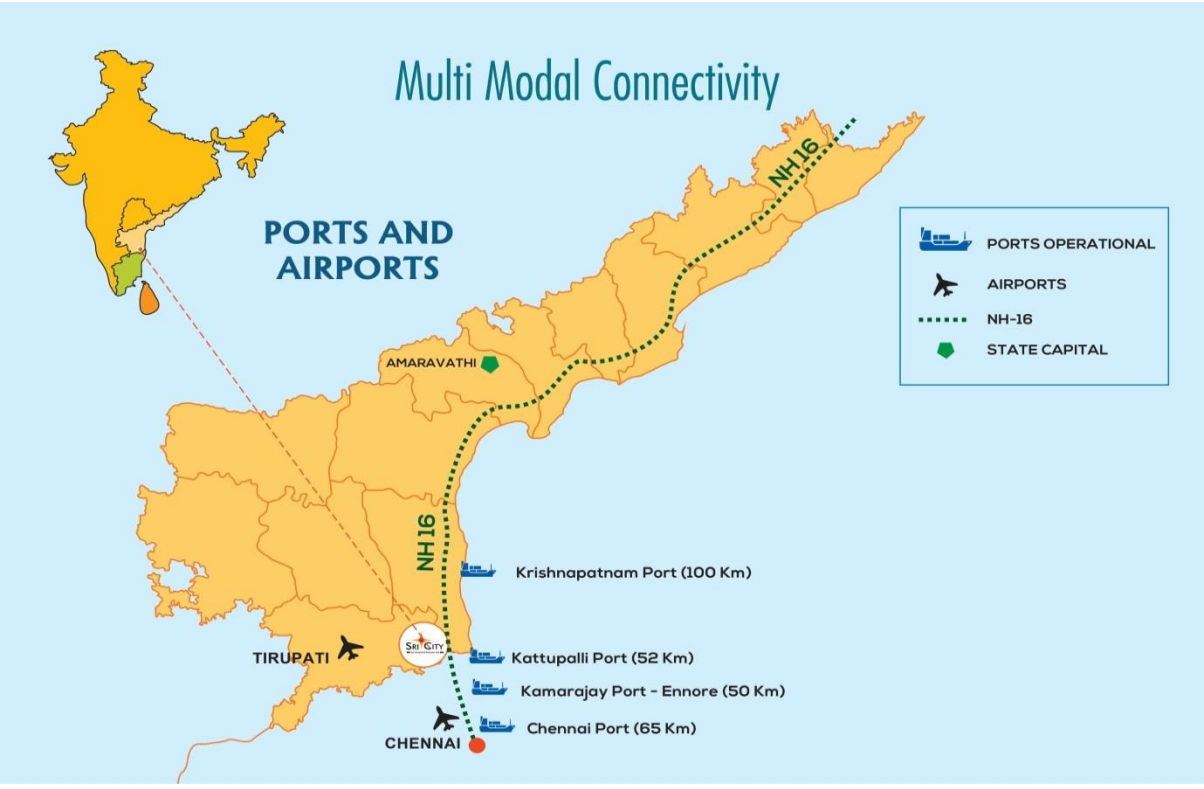
Brief about Sri City:

Strategic Location:-

Spread over 7500 acres, Sri City is located about 55 Km north of Chennai, the commercial centre of South India, abutting the border of AP and TN. It has the advantage of a Multi-product Special Economic Zone (**SEZ**), a Domestic Tariff Zone **(DTZ**), an Electronics Manufacturing Cluster (**EMC**), as well as a Free Trade and Warehousing Zone (**FTWZ**) within its precincts. Built on the Work-Live-Learn-Play concept, Sri City offers a blend of business, industrial, commercial, residential and recreational facilities.

Multi-modal Connectivity:-

Sri City well connected by Rail, Road Networks and has access to 4 seaports and 2 International Airports.



Robust & Sturdy Infrastructure :

- Systematic network of 6-lane/4-lane/2-lane internal roads
- Uninterrupted water supply with extensive water management systems
- 24x7x365 continuous, stable & reliable power supply
- High speed broadband & extensive bandwidth
- Storm water & sewerage networks
- Efficient & Professional Operations & Maintenance Systems

Sri City is well on its way towards creating a holistic Japanese enclave within the industrial park. With close to 24 Japanese companies already functioning from Sri City and more firms in the pipeline, Sri City has become the preferred destination for Japanese investors. This is primarily because the park provides an excellent industrial ecosystem for businesses to flourish in addition to high levels of ease of doing business.

The Japan India Institute of Manufacturing (JIM) at Sri City

The Japan India Institute of Manufacturing (JIM), at Sri City jointly with the governments of India and Japan, supports a number of technical trainees through industrial exposure and monthly stipends.

With plans to create a Japanese Vendor Park, exclusive Japanese residential infrastructure and trade desks, Sri City is committed to forging stronger ties with the industry in Japan and looks forward to work wholeheartedly with the industry in Japan, to realize the true potential of the Indo Japanese bilateral partnership.
