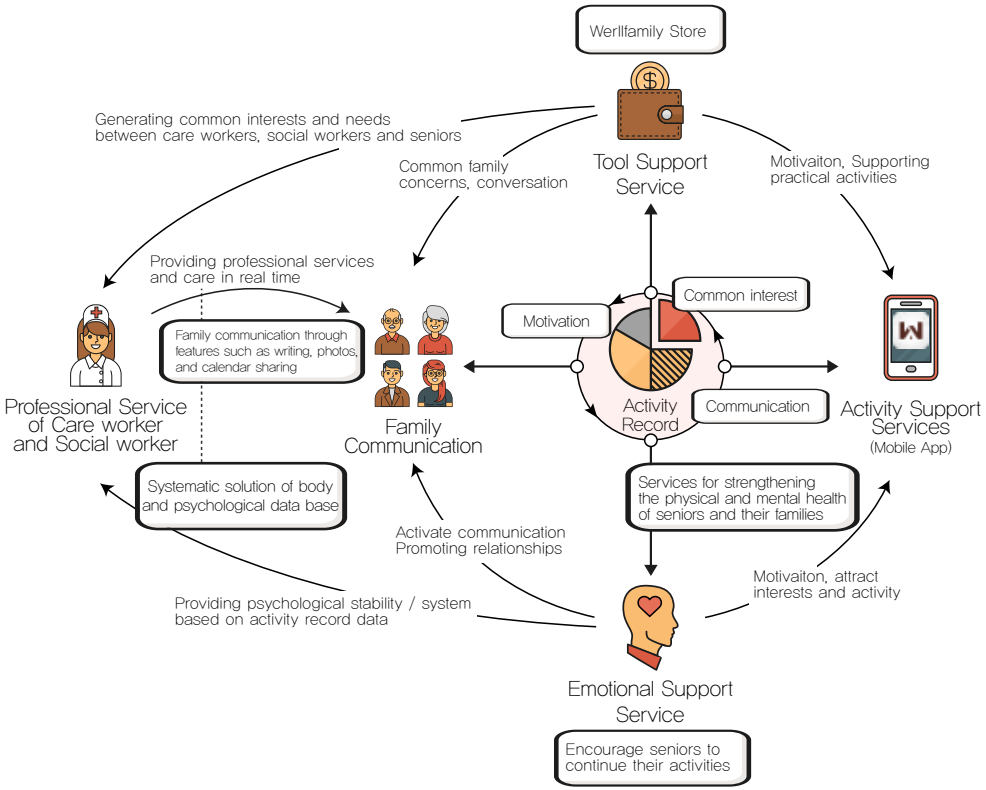
Wellfamily House Service Structure

Wellfamily House has a virtuous cycle structure that allows the family to continue communication based on the activities of senior through emotional and instrumental support.



Professional Service of Experts

Care workers and social workers can join several Family Pages. Care workers and social workers can manage posts, family page posts, and more through the admin page.
This has the advantage of being able to take care of not only the care recipients but also their 'family worries' with only one APP.

The Sound of Memory

Enhance your memory by listening to the Sounds of Memories and share them with your family. Reminiscence therapy through sound, which can maintain and develop cognitive abilities memorable sound.

Physical Health and Fall Prevention

Senior can identify his / her current health condition through the program of "self diagnosis" and "physical ability evaluation". In addition, the 'Risk Assessment' service allows you to identify and prepare for risks that may arise in your living space. These services provide the most necessary services for seniors, both fall prevention and health care.
