

Give a new life to the beer production in your city...

„You can get new unique brewery from reliable professionals within 4-5 months.“

Characteristic feature of PSS SVIDNÍK, a.s. work is **professionalism** and **organization** of company workers.

“Our company began to cooperate with the company PSS SVIDNÍK, a.s since 2016. During this short period of time, the company have demonstrated its ability to **responsibly approach** given tasks, do the work well and on time.

The *characteristic* feature of PSS SVIDNÍK a.s. work is **professionalism** and **organisation** of company workers.

In particular, we would like to emphasize

the employees and express gratitude to them for the installation and putting brewery equipment into operation in our old brewery in city Batumi, Georgia. Experts Ľuboš Mikula, Pavol Lažo and Peter Sasarák have shown as dutifull workers and professionals in their field. They have great experience with the work in non-standard condidtions. They were communicative and friendly and they had no problem to work with our workers.”

SOLUTIONS FOR QUALITY AND QUANTITY

”We would like to say special thanks to company consultant. Ing. Sergej Krupej have shown exceptional professionalism and qualification. He understood the role and objectives of our company and he helped us to realize this important project. He helped us to build a new brewery through which we gave a new life to the beer production in our city.

Nana Džanelidze, general manager of LUDI BATUMURI L.T.D

We are very satisfied with the work, which was carried out by company PSS SVIDNÍK, a.s. and we are prepared to continue long-term cooperation in the realization of new projects.

We recommend PSS SVIDNÍK, a.s. as **responsible and reliable partner.**”
