

Founded in Bologna (Italy) in 1939 as "Ditta Angelo Pelliconi" (DAP), specialized in the production of crown corks, today Pelliconi is a world leader in the field of metal and plastic closures for the food & beverage industry.

Pelliconi is continuously expanding its business. Today it has five production plants spread over 4 continents: two in Italy, in Ozzano dell'Emilia (Bologna) and in Atesa (Chieti); one in Cairo (Egypt); one in the United States, in Orlando (Florida); the most recent site was inaugurated in 2016 in Suzhou (China). There are also five international commercial branches, thanks to which Pelliconi has created a vast sales and distribution network allowing the group to become one of the largest producers and exporters of closures worldwide.

Pelliconi currently has an annual production capacity of nearly 31 billion caps and employs more almost 600 people worldwide, with total revenue of about 165 million euros. Thanks to an incessant investment program, the trust and the support of its customers, the group has continuously grown over the past ten years. In the near future, the Group will continue to consolidate its presence in Europe, and a further expansion towards the new strategic East markets is foreseen, as well as the development of new products in related sectors such as *digital innovation services*.

Pelliconi is a dynamic and reliable group, which works every day to be a strong partner and an important point of reference in the research and development of innovative solutions for the bottling and packaging industry. The "Flower Cap" for example, with its smooth design and soft feel, is the new closure for 26mm pry-off bottles; the "Maxi P-26" ring pull cap is now available in the new version MAXISMART, safer, easier and faster to open; the "Smart Crown" cap winks to the environment with its greatly reduced thickness; the "Sopure" closure dedicated to baby food, has a PVC-free liner and is BPA-NI (Bisphenol A Non-Intent). All these are concrete examples of Pelliconi's commitment to guaranteeing customers and final consumers a safe, functional and captivating product at the same time. The company has also imposed to all production plants the adoption and the compliance with international standards and regulations on food safety, quality and the environment.

With creativity, competence and team spirit Pelliconi is able to meet the needs of the most demanding customers. The passion for innovation and quality, its customer orientation and the strong sensitivity towards the issues of food safety and environmental protection are the main ingredients of its success.

Finally, Pelliconi is an ethical company, which takes care of the health and the wellbeing of its employees and of the inhabitants of the territories in which it operates, and devolves every year part of its earnings in favor of scientific research and for the support of social, cultural and artistic activities, with the aim of redistributing wealth, with a view to reciprocity towards the whole community.
